Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-20 and 25, drawn to protein, pharmaceutical and such methods of use.

Group II, claim(s) 21-24 and 26-29, drawn to isolated deoxyribonucleic acid fragment, composition comprising a deoxyribonucleic acid fragment and a method of making a deoxyribonucleic acid fragment.

Group III, claim 30, drawn to a method of purifying ligands.

Group IV, claim 31, drawn to a method of purifying antibodies

Group V, claim(s) 32, drawn to antibodies.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The amino acid sequence of group I is known. (See search report of international phase.) Thus, these five groups are not so linked as to correspond to a single general inventive concept as a whole over the prior art.

Further, PCT Rules 13.1-13.2 do not provide for multiple methods of use.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

Art Unit: 1653

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call was made to Teresa Rea on January 31, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laurie Mayes whose telephone number is (703) 605-1208. The examiner can normally be reached on Monday through Friday from 7 Am to 3:30 PM.
